

Hannah

“I love to meet new people, but i am not that familiar with events of the university”

Hannah just started studying on the university of Reutlingen. She moved to the dorm next to the campus. Hannah likes to go to events and meet new friends. She would like to be able to have information about upcoming events on the campus or parties arranged by other students.

Name: Hannah
Gender: Female
Age: 18

Key characteristics

- Student
- Wants to find new friends
- Would like to go to faculty crossed events on the campus

Goals

- Get an overview on which events take place at the campus
- Information on upcoming partys for students

User Case Scenario

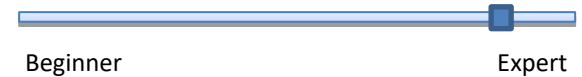

Hannah has a free weekend and and her roommates are out of town. She would like to know if there is a party or an event of the university or of other students where she can go to. She would also want to know what kind of events take place.
